Education

Vellore Institute of Technology

Bachelor of Technology, Computer Science and Engineering

2023 – 2027

Bhopal, India

CGPA: 8.43/10

Technical Skills

Languages: Java

Frontend: HTML, CSS, JavaScript, React Js

Backend: FastAPI, REST APIs, JWT Authentication

AI / ML: Google Gemini, OpenAI API, Prompt Engineering, scikit-learn, Regression, Random Forest

Databases: SQLite, MySQL

Tools & Platforms: Git, GitHub, Postman, Twilio, Slack Webhooks

Projects

Monacos | *Indoor Health Intelligence Hub* | github.com/ROHAN-3105/indoor-health-hub Mar 2026 – Present

- Developed a full-stack AI-powered healthcare platform for real-time indoor environmental monitoring using React (Vite), FastAPI, SQLite, and ESP32 sensor integration.
- Built an interactive dashboard featuring live sensor monitoring, multi-room management, hazard alerts, historical analytics, and responsive data visualization using Recharts.
- Integrated an AI Health Guardian using Google Gemini and OpenAI GPT-4o-mini, using prompt engineering and live/historical sensor context to generate environmental insights and personalized room-specific recommendations.
- Implemented ML-based environmental forecasting using scikit-learn Linear Regression and Random Forest models for short-term and 24-hour sensor predictions from historical and time-based features.
- **Tech Stack:** React (Vite), Tailwind CSS, Shadcn UI, Recharts, FastAPI, SQLite, Google Gemini, OpenAI API, scikit-learn, Linear Regression, Random Forest, JWT, Web Bluetooth, ESP32, Git

InsurRenew Pro | *Bilingual AI Insurance Renewal Agent* | github.com/ROHAN-3105/InsurRenew-Pro-Agent

- Configured and customized a bilingual (English/Hindi) AI insurance renewal agent on the **Inya.ai platform**, using a **Knowledge Base** for contextual policy information and multi-turn customer conversations.
- Designed modular prompt-engineering workflows for insurance renewals, objection handling, intent and sentiment-based responses, callbacks, and eligibility-driven policy upselling.
- Integrated **Twilio SMS APIs** for renewal/payment links and **Slack Webhooks** for real-time human-agent escalation, enabling multi-intent actions within a Prompt–Actions–Integrations workflow.
- **Tech Stack:** Inya.ai platform, Knowledge Base, Prompt Engineering, REST APIs, Twilio SMS, Slack Webhooks

Achievements & Hackathons

- **GenAI Hackathon Mumbai 2025** – Shortlisted in the **Top 75 out of 418 teams** for the Grand Finale, building with Google Gemini and Vertex AI.
- **NASSCOM × gnani.ai Inya.ai Buildathon 2025** – Reached the **Final Round** with InsurRenew Pro Agent under the Agentic AI track.
- **FOSSEE Open Source Hardware Hackathon 2026** – Participated in the IIT Bombay FOSSEE hackathon, developing Monacos, an AI-powered IoT indoor health monitoring platform.

Certifications

- **MPOnline - Advanced Software Engineering Internship**

Jul 2026
